Project Name	Book a Doctor
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Healthcare access is one of the most critical needs in society. Patients often face challenges such as long waiting times, lack of transparency in doctor availability, and inefficient manual booking systems. Doctors and hospital administrators also struggle with overlapping schedules and poor resource management.

To address these issues, our team has defined problem statements from the perspective of different stakeholders. This structured approach helps us empathize with users, understand their pain points, and design a solution that delivers real value.

Example:

Book A Doctor Project: Problem Statements			
 Patient	 Working Professional	 Hospital Administrator	 Doctor
Problem I wait in long queues to see a doctor.	Problem I can't find appointment slots easily.	Problem I struggle with overlapping bookings.	Problem I get double-booked by patients.
Issues Manual booking process at hospitals.	Issues No transparency in doctor availability.	Issues No centralized scheduling system.	Issues Outdated, manual appointment updates.
Feeling Frustrated & anxious about healthcare access.	Feeling Stressed & unable to plan checkups.	Feeling Overwhelmed & inefficient in management.	Feeling Exhausted & unable to focus on patient care.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A patient needing medical consultation.	Book a doctor online.	I face long queues and delays.	Selfemployed with a good credit history.	Frustrated and anxious about healthcare access
